Quote good for 30 days. 50.00% deposit required with the order, the remaining balance is due on delivery of the door.

Please note, we charge sales tax in the following states: MN, SD, and CA. We must have a signed copy of your exemption or resale certificate on file or sales tax will be applied as conditions warrant at time of invoicing.

Door is not put into Hydroswing's production schedule until receipt of the Deposit, Measurement Sheet and Signed Purchase Agreement.

Hydroswing doors are designed and warranted to support 26 gauge steel on the exterior of the door. Please contact Hydroswing for review and approval if the door is required to support any additional weight.

This Quotation and Purchase Agreement does not include sheeting, unloading, insulation, any permits, or engineering.

Hydroswing reserves the right to change shipping charges due to any fuel price increases at time of delivery of the door.

This Quotation and Purchase Agreement is subject to and includes all of the provisions set forth on this page and in the Standard Terms and Conditions which accompany this document. The Buyer acknowledges that he has read the entire Quotation and Purchase Agreement including the Standard Terms and Conditions and agrees to be bound by these provisions once Buyer signs and returns the Quotation and Purchase Agreement form to Hydroswing.

**If you accept this quote, please sign this agreement and the measurement spec sheet, and return both documents to Hydroswing.**

---

Dear Mike,

Since its inception in 1994, Hydroswing has grown to be the world's largest supplier of custom built, Hydraulic Door and Wall systems. Providing doors both large and small, Hydroswing delivers unequaled quality, strength and security, and is backed by a team of people who are committed to building relationships with their customers that last as long as their doors.

At Hydroswing we understand that large door systems need to be as hard-working as the people who depend on them – so regardless of climate, cycle frequency, or industry, every Hydroswing is built to perform consistently, day in and day out. Backed by the Industry's best warranty, you will not find a better-built, longer lasting door system in existence.

Please review the attached quotation that we have provided for your project. If the dimensions and information represented in the quote are accurate, we request that you submit to us the following three items:

- Signed Purchase Order
- Completed Measurement Chart and options
- Down payment equal to 50% of order total

Upon completion and submission of these items, your door order will be placed into our production schedule.

If, however, you require a modification to the size or selection of a feature not indicated, please contact us so that we can modify your proposal.

Sincerely,

Adam Laleman

Sales Manager

**NOTE:**

- These measurements represent the rough opening of your building
- All measurements must be inside measurements
- Cement floor must be level
- The measurements on this sheet are used for the manufacture of your Hydroswing Door.

**\* If the measurements on this sheet differ at all from what you were quoted, the price on your final purchase agreement may change. If there are multiple doors for this line item, all doors must have identical measurements, otherwise you will need to request additional measurement spec sheets.**

**The measurements above are true and correct according to our measurements.**
